That way they get to enjoy all the other benefits of the Mother Natured Community too. [Click here to learn more.](#)

# Fish Nature Crafts

When flowers are shooting rainbows across the landscape, or when leaves are falling from above consider stealing a couple! Create leaf and petal fish with your kids.

## What you'll need

- Fish printable/s
- Materials from nature - leaves, flowers shells
- Good quality craft glue

## How to make it

1. Collect the nature that's available around you. Collect flowers, sticks, grass, leaves, stems, rocks, seeds and more.
2. Display your nature finds on the table so that your children can see all the materials available to them.
3. Place the glue (optional) and the printables on the table.
4. Let your children get creative. They can decorate the printable over and over (don't use glue) or use glue to create an artwork they can take home or display.
5. Display when completely dry.

Use this printable as a how-to, or place it up as a poster in your centre to showcase the activity you'll be doing today.
